Applicant comment

"I should pay off the car before closing, so my other payments would only be \$250 per month. I may rent out a room for about \$900 a month later."

File review note

Car payoff has not been documented. Current listed debt payments total **\$600 per month**; \$250 is a proposed future scenario. No rental agreement is available for the proposed room rental. Flag both statements for review rather than treating them as verified changes.

The application contains superseded estimates and unverified future plans deliberately. It is intended to test whether extraction distinguishes prices, balances, monthly payments, annual costs, term, and amortization. No mortgage approval is represented.
